TECHNICAL SKILLS

- Front-End: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.js, Basic in UI/UX
- Back-End: Node.js, Express.js
- Database: MongoDB
- Version control: Git
- Developer Tools: VS Code

PROJECTS

Weather Prediction Web App :   Tech Stack: HTML, CSS, JavaScript, OpenWeather API
- Users can search for any city and get real-time weather details (temperature, humidity, wind Speed).
- Integrated OpenWeather API for accurate and up-to-date data.
- Designed for smooth user experience with minimal UI and quick data load.

Todo List Application :   Tech Stack: React.js
- Created a task management app where users can add, edit, and delete tasks.
- Implemented full CRUD (Create, Read, Update, Delete) operations using localStorage for persistent data.
- Minimal UI with responsive layout to support mobile and desktop views.
- Built for daily productivity and learning local storage management in React.

First E-Commerce Website: GitHub: github.com/Sathesh15601/First-E-Commerce-Project
  Tech Stack: HTML, Tailwind-CSS, React js.
- Built a responsive e-commerce website using HTML, Tailwind-CSS, and React js.
- Implemented product listings and shopping cart functionality
- Used vanilla JavaScript for interactivity
- Designed a clean, mobile-friendly layout with scalable code structure

CERTIFICATIONS

- Meta Front-End Developer Professional Certificate
- Kgisl MicroCollege Full Stack Certification
